

Introducing Belmont 1600

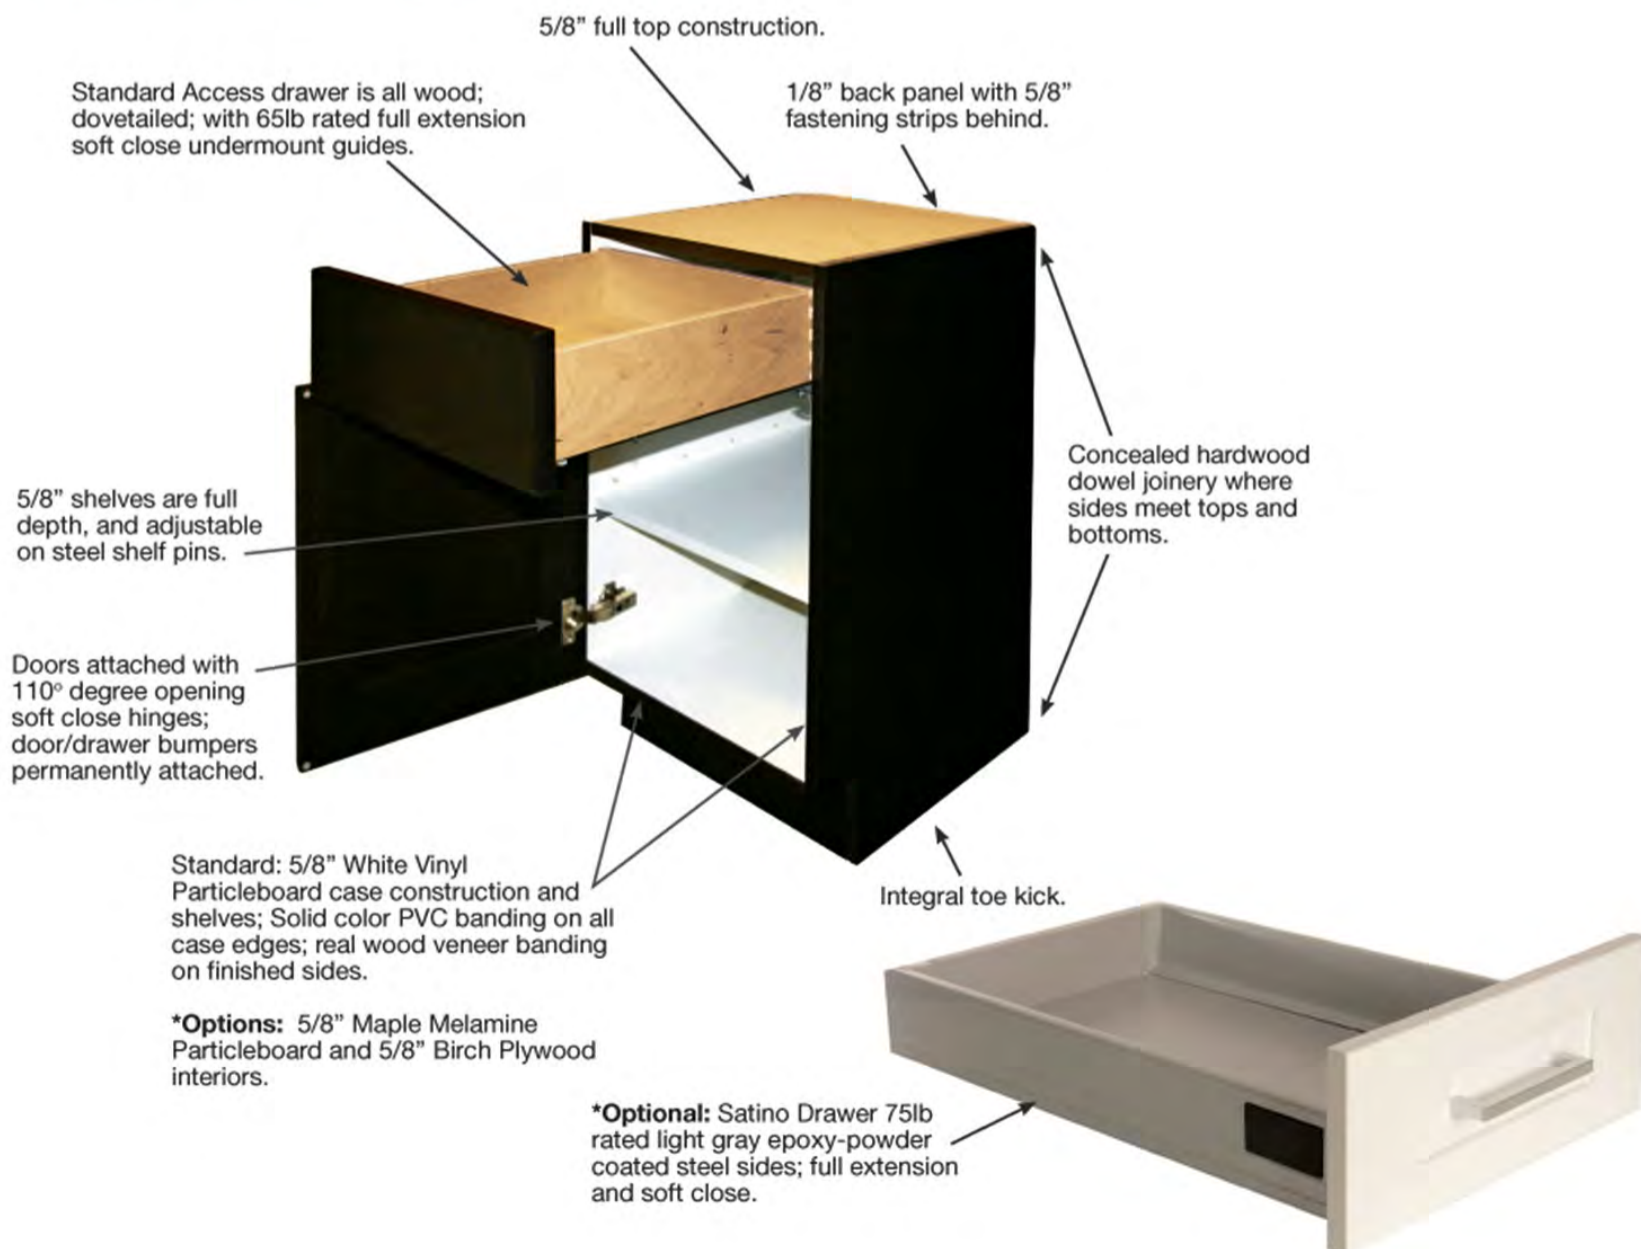

Bellmont 1600 meets budget boundaries without compromise to style and construction quality. So, choose a trend setting urban style, or a transitional blend, or even a tried and true classic, and be assured you're getting great cabinetry you'll love living with.

Bellmont 1600 offers 5/8" Maple Melamine Particleboard and Birch plywood case construction options. Belmont 1600 Cabinetry is full access construction (often called frameless or euro-style) maximizes available storage space. These options provide a luxury interior look, are extremely durable and easy to clean, and meets current CARB requirements for ultra low formaldehyde emissions.

With Birch Plywood option all 5/8" box components (sides, tops, bottoms, shelves) will be plywood.

Realize additional efficient storage with wider drawers, greater interior storage capacity, and unobstructed openings, and all with the clean crisp look of flush-fitting full overlay doors and drawers. With Belmont 1600, you are investing in cabinetry engineered with structural integrity and durability proven to withstand the rigors of every day use.
